Quality & OHS Policy

Electrical Power Systems Est. is providing services related to installation, Configuration, testing and commissioning of electrical panel at electrical sub-stations. Our focus is to provide services to our valued client at affordable conditions with entire customer satisfaction. We are always open to use customer feedback and suggestions to improve quality of work. We are committed to provide defect free services to our customers and maintaining a safe and healthy work environment during all phases of services.

EPSE creates and ensure safe working conditions during work by establishing working procedures, arranging training and providing appropriate PPE's to its staff on regular basis.

EPSE is committed to use latest technology, best quality products and skilled work force during service provision and continually enhance customer satisfaction.

To achieve quality and safety during our services, we are committed to:

- 1. Comply with all applicable Local laws, statutory & regulatory requirements, international laws and contractual requirements specified by the customers and other interested parties.*
- 2. Eliminate work related hazards by conducting on going hazard identification and taking action to eliminate them and consequently reduce OH&S risks.*
- 3. Ensure consultation and participation of workers or their representatives in establishing policies, identification of hazards, risks, incident investigations and wherever required or needed.*
- 4. Quality and OHS policy shall be set and followed.*
- 5. Continually improve our Quality and OH&S management system*

Mr. Sabri Ali AlQudaihi
